Gate Lodge, Fever Hospital, Galway, 8th January, 1908.

The Presiding Chairman and Members of the Galway Board of Guardians.

As directed by the Board at a Meeting neld on the 18th Decr., 1907, I now submit in writing some of the things which I beg to bring under your notice with the object of having them

Admission of patients to Hospital. I will take this first. I beg to state that I have not power to admit any without first having an order from the Master, and this I cannot get the Master to do except in a most irregular way. When Mr. O'Dononce is absent I get no card. When the Master is notified about a patient or patients to be sent to Hospital, the first thing he should do is to notify me, then I could tell the nurse in charge, so that beds could be prepared for them. This

Notice of Death. I would also ask whenever Mr. O'Dononce is absent, that notice of death be submitted nere before being sent out, so that the wrong people would not be notified. This

Number of patients admitted. Since I got first card on Septr. 22nd, 1905, to Decr. 23rd, 1907, is 224. Number shown by cards

Funerals. Invariably when a patient dies other than Dr. M'Donogh's, I receive verbal orders from the Master, counter--manding the orders of the other Doctor. This is rather con--fusing to me, and as a rule it annoys and excites the friends of the deceased, and sometimes has caused serious trouble. I will give you here a case in point.

21 2 Sunday, Octr. 28th, 1906. There was a funeral fixed for 1 o'c. p'm. this day. About 12 -30 p'm. the Porter sent a note to Schucks & Tombilishoon - ophold nasil the Master, requesting him to have men here at the hour fixed on, to carry out remains to the gate. The deceased, Janes Faraher, died of some affection of the brain, had no infectious 38 disease, and contracted none whilst in Hospital, and Dr. Chine challener at Chunchardes mande by placesto again Colahan gave the Porter instructions the previous day, to take and the child Many Billiams to Nurse She having allow the remains out to the friends, and added, the poor boy as directed by has points able to branching while a method of balantic should not have been sent bere at all. Soon after my sending the note to the Master, I was sent a verbal message by Martin Les, not to allow the remains out to the friends, and that he was sent by Dr. M'Donogn and the Master to tell me so. .Delbener Afterwards, Mr. John Hanly called on se with a similar message, the second and and the state in the second and the second and the 64 he said from the Master, viz: - not to allow the remains out. New that this Hospital has been raised to a high standard in every way since the present Head Nurse took office, I would . The same the converse of the set of the se ask the Board to stop such low proceedings, which are only fit O Dogonas 1a abreact I get no onbe. When the mather is notified for corner boys, &c., and I fancy the Master should not lend well a supported by the sources of the second and a support of the second secon himself for such purposes. At present, having only one patient in Hospital, things are going on smoothly, but immediately we have some admitted, farthing has beene and all allow and and and and and and a second and then there will be, I fear, the usual blundering in sending norther as in the set of the set supplies here, particularly milk. I am, Gentlemen, Your Obedient Servant, John. P. Fogarty, Porter. and a start to a server wider to the a bringer Order. "Copy to be formished to the Master, and his esplanchion - and a state of the second of the same and the second of to be called for. The Predical Officers and Charge Nurse, also to get copies of the report. 8
