The foregoing Letter having been considered the Guardians beg to draw the attention of the Local Government Board to the fact of John Feeney the boys father being a County Officer as Bridewell Keeper of Tuam having no residence at any time in this the Union previous to his appointment to that Office and in that view they cannot look upon his case in the light as shown in the "Guardians Manual" or in the Circular of the 10th January 1865, and request the Local Government Board

Board will be so good as again to consider the matter with the view of having the cost of maintenance charged on the Union at Large, otherwise they fear the boy will be debarred the education which such Institution alone can afford. ✓

the 8th March last and that his name had not been entered on the Relief List until the first week of the present half year, although the relief had been ordered in each Monthly revision from the above date, and requested the Board would allow him to take credit for the sum paid. ✓

The Guardians having examined the case, and the entries in respect to each Order for relief, and having found them correct, together with being satisfied that the relief was paid to the Woman, agreed that the amount of Relief so paid be allowed to the Relieving Officer although irregular and that he take credit for same in his Accounts. ✓

2 Cs for 1902 Headford 31st December 1872

Gentlemen, 2 2 2 2

I beg leave to report that a few Weeks ago my attention as Sanitary Officer was called to the premises of Pat Molloy, Hubert Moran, and James Canavan residing in the town of Headford. From the very wet Season the are to their houses was flooded and their dwellings in a very damp state There is no Sewer to take this Water from these people's premises to the Main Sewer in the town. Molloy opened a passage for the Water into Morans premises, and Moran let the water into Canavans premises inundating his place. Mr. Merrit lives next to Canavan, and on his premises there is a sewer passing through his dwelling to the main Sewer, I asked Mr. Merrit to allow a little passage for the Water (distance about 2 yards) to be opened from Canavans premises to the sewer on her premises, She will not allow the passage stating that the sewer on her premises was built at her own expense and for her own accommodation. Doctor Turner has pronounced the state of Canavans house and premises injurious to health.

I remain Gentlemen your Obd Sert
Peter Canavan.

To The Board of Guardians

Order. Relieving Officer Mr. Peter Canavan directed to see that the nuisance is abated, and to write to the County Surveyor, and to communicate with Mr Morris Agent of the Headford Estate for the above purpose.

The Reports of the Master and other Officers were read, and Orders made thereon as follows:—

The Medical Officer reports that there were not any deaths during the past week, and that 77 persons remain under treatment.

Gentlemen,

Having been called on to give an explanation of the cause of the excess of cost in these Hospitals over neighbouring Unions, I beg to state that the Average cost varies according to the number and class of cases in each Hospital under treatment, as to ages, disease and the requirement of extra diets; Also the increased price of provisions must be taken into consideration, with the necessaries which are included. The average struck by me, and in the case of last week, for the small number in Fever Hospital amongst which it had to be divided to strike the average amounted to considerably more than 1/3 the entire cost in each patient as the Master informs me. In the Infirmary there are at present 66 inmates, of whom 50 are adults, requiring full diets, and many of them extra from the Nature of their diseases and state of health. Every possible means of controlling and keeping down the Average cost of the Hospitals consistent with the well being of their inmates is taken by me, and I beg to suggest, that the general Average of Hospital cost ought to be the criterion for comparison with other Unions, in which case, I feel confident that your Hospitals will bear inspection.

Thomas B Turner.

I take the report ended 1st February, and I find the total cost that week for five adults and two children to be £2.7.11¼, or 6/10 each, but of that sum 18/6½ was a charge as follows. Candles 11½ Soap 3/3, Fuel 16/4, which Clerk keeps as a necessary Establishment charge, and is generally of the

the same amount without reference to the number of Patients.
I also visited the House, Infirmary, Schools, Workshop &c. and found everything in very good Order. The Materials being made up in the Workshop are of a very good Kind.

12th February 1873 — John Nolan

The following communication in respect to the state of Boardroom and Hospital Chimneys as reported by the Master on the 5th Inst. was read.

I have examined the Chimneys of the front Building, and the Kitchen Chimney of the Fever Hospital at the Inishmaan Union Workhouse. I find that three fourth of the brick is moulded away, and one of them over the Boardroom cracked and crooked, and the Capping inclined to fall off, also the top flashing is loose, and should be leaking. My opinion is that they should be newly built. They need not be built within two feet of the present height, and to put pots on to substitute the two feet to be lowered. The Chimneys should be built solid without a division between them such as there is at present. The Fever Hospital Chimney need not be built within six feet of the present height. I would recommend the Guardians if they build them to have all the outside brick got from Moate, as the Armagh brown brick will not stand outside work. The lead flashing should be properly set in with good Portland Cement, and the Capping finished with fine brick and Portland Cement. All the old brick that is approved of will do the inside work.
